# Low Dose Naltrexone (LDN) Provider & Patient Seminar

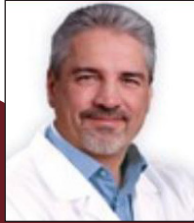

6:30-8:30pm | April 30 2019

**“The Utilization of Low-Dose Naltrexone (LDN) as a Novel Treatment Option for Chronic Pain”** hosted by Town & Country Compounding & Dr. Samyadev Datta, with Special Guest Linda Elsgood, Founder, LDN Research Trust (Norwich, England)

This seminar will examine the specific chronic pain conditions for which LDN has been shown to be an effective, non-opioid, treatment option **for patients experiencing moderate to severe pain**, inclusive of Complex Regional Pain Syndrome (CRPS), Fibromyalgia, Neuropathies, back pain and autoimmune disease. In addition, LDN’s unique ability to control pain in opioid-dependent patients, **and assist in the tapering and elimination of opioids**, will be reviewed. A comprehensive review of current literature will be discussed, its mechanism of action, **as well as the clinical experience gained from the treatment of thousands of LDN patients**, to form the clinical indication specific dosing guidance and titration protocols which are essential to achieving therapeutic success for your patients.

**Linda Elsgood**  
Founder  
LDN Research Trust

**Linda founded a worldwide movement that has helped almost a million patients achieve the benefits that LDN can provide.**

Her personal story of perseverance over Multiple Sclerosis after finding LDN, is profoundly moving. She has lectured all over the world and is now coming from England on an 11-day tour of the US! She has agreed to come support the work that Town & Country has become an integral part of - to help bring LDN to as many patients as possible.
